For almost ten years we have been manufacturing and marketing a food product called Hemp Hearts (shelled hemp seed) which, by laboratory analysis, is an excellent source of protein, omega fats and essential nutrients, but which contains virtually no sugar or starch.

Please describe yourself and the length of time that you have been using Hemp Hearts:

I am a very active lady. I have been using the hemp hearts for years daily. I am 54 years old and believe this product has given me more energy and well being than any other products I use.

We claim that because of the protein content of Hemp Hearts those who eat five heaping tablespoons of Hemp Hearts early each morning will not normally be hungry at lunch time and will be able to avoid the starches usually consumed for lunch.

Please describe your experience regarding hunger and Hemp Hearts:

As long as I use hemp hearts on my cereal or in my smoothies I am rarely hungry before lunch.

We claim that because of the essential fat content of Hemp Hearts that unless an individual is considerably overweight or extremely active, most individuals who eat five heaping tablespoons of Hemp Hearts each morning will have sufficient energy until evening.

Please describe your experiences regarding energy and Hemp Hearts:

This product keeps me going. I am up daily at 5am, run at 5:30am for 8 kilometers, work 8 hours a day. Do a 1 hour class in the evening "Group Strength" or "yoga" and "swim" for an hour after that. Every day I do at least 2 physical classes. Twice a week I swim.

We advise customers that Hemp Hearts should be eaten for breakfast with unblended raw fruit and vegetables (no fruit for diabetics) so that the long fibers in these foods will knit wastes together to ensure that individuals are not too loose, but that they clean out thoroughly.

Please describe your experiences regarding digestive health and Hemp Hearts:

Digestive health works great as long as I continue to use daily.
